

Water Connections 2012

Orica Australia Best of the Best Queensland Water Taste Test and Water Conference

South East Taste Test Semi Final and Conference - 15 March 2012 Maroochy Surf Club

Kindly hosted by Unitywater

Following the success of the 2011 Best of the West Water Taste Test, this year's event will open the competition up to all eligible Queensland Water Service Providers in our quest to find the best-tasting tap water in the state.

The 2012 Orica Australia Best of the Best Queensland Water Taste Test aims to raise awareness of the State's quality drinking water and to recognise the efforts of local water service providers in delivering valuable water services to their communities.

In response to member requests to strengthen communication channels in regional Queensland and provide networking opportunities, **qldwater's** regional conferences provide a forum for updates on the latest key issues. The conferences aim to include a diverse range of speakers but most importantly, to provide interesting and interactive sessions to help inform and influence **qldwater** priorities.

DRAFT CONFERENCE PROGRAM

10.00am	Registration, morning tea and lodgement of water samples	
10.30am	Welcome and introduction by Dave Cameron, qldwater and judging Best of the Best Water Taste Test	South East Taste Test Semi Final
11.15am	Orica Australia	Topic TBC
11.30am	Case study: Total Water Cycle Management Planning at Unitywater	A joint project between Unitywater, Moreton Bay Regional Council and Sunshine Coast Council. The work that has been done has won a Storm Water Industry Award recently.
12.00pm	Bevan Smith, Senior Project Officer, Community Water Education and Research, DERM	Water Literacy - Reading Between the Lines
12.30pm	Ian Heiner, DERM	CSG
1.00pm	Lunch	
1.45pm	Case study: Unitywater and DERM: Innovatively pushing the traditional sewage treatment plant (STP) licencing/ upgrading boundaries	Traditional licencing triggers to plant upgrades; Costs of recent upgrades; New drivers: cost of living increases, upgrading point sources may have little impact on the receiving environment, efficiency and prudence; Drivers pushing Unitywater to think "outside" the norm including wetlands; Cooperation between DERM and Unitywater; The way forward....
2.15pm	Dr Helen Stratton – Smart Water Research Centre	Topic TBC
2.45pm	TRG session	Open forum to discuss issues such as Fluoridation
3.45	Closing, feedback and final comments	
4.00	Networking drinks
